

UM120W and UM120WS, WATERBORNE SPRAY GUN CLEANERS

UM120W

AQUA-KLEEN
WATERBORNE CLEANER

WATERBORNE SPRAY GUN CLEANING

Manual Cleaning

Waterborne spray guns are cleaned effectively with 3 cleaning tools.

- **Wash gun** delivers high pressure water to flush the fluid passage in under 15 seconds. (See photo below)
- **Flow-through brush** removes paint from the outside of the spray gun.
- **Air gun** dries the spray gun.
- The cleaning power of water is enhanced by the addition of AQUA-KLEEN, Uni-ram's waterborne cleaner.
- The used water can be recovered and reused reducing water consumption and disposal costs, it is a "Green" approach.

FLUSHING THE FLUID PASSAGE OF THE SPRAY GUN WITH THE WASH GUN

THE CLEANING TOOLS EFFECTIVELY CLEAN SPRAY GUNS.

UM120W and UM12WS, WATERBORNE SPRAY GUN CLEANER

WATERBORNE SPRAY GUN CLEANING

Features

- Stainless steel cleaning tank for long life.
- Wash gun and brush are powered by Uni-ram's 5 cm (2") dual diaphragm pump.
- **"Green" Water Recovery System**
 - The used water is treated with Uni-ram's flocculating agent, **COAG-KLEEN FP** granules, then filtered. **COAG-KLEEN FP** causes the waste paint to clump at the surface of the water. The filter captures the waste paint, allowing the clean water to pass to the capture container.
 - Used water can be reclaimed up to 8 times reducing consumption and disposal costs, *it is a "Green" approach.*
- CE Approved.
- Complete with pressure regulator. Minimum air pressure is 6 bar (85 psi).
- Dimensions: 119 cm w x 43 cm d x 117 cm h
Weight: 77 kg (170 lb)

2" Dual Diaphragm Pump

- Air Consumption: 1 CFM
- Output: 1.3 US Gal (5 litres) per minute at 75 PSI (5.1 kg/cm²)

"GREEN" WATER RECLAIM SYSTEM

UM120WS, WITH STAINLESS STEEL CABINET

- Filters
 - Primary, 400 Micron, 102-8125
 - Secondary, 25 Micron, 102-8126
- Filter Holder, 102-8120
- Capture Container

**COAG-KLEEN FP
FLOCCULANT**
